

Swine Health Committee Agenda
AASV Annual Meeting
Dallas, TX
City View 8 room
7:00 am, March 1, 2014

- Nominations and election of a new SHC chair
- Advisement for consideration at Pork Forum – Paul Sundberg
- Update on emerging issues/diseases -Robert Desrosiers
- ASF in the EU – Mark Engle
- PEDV
 - Three unrelated strains introduced within a year
 - Swine Deltacoronavirus (see press release)
 - Industry public sector collaboration
 - Thoughts on viral spread
 - What has changed? Need overseas investigation?
- Swine Virus List
 - Prioritize the diseases with respect to potential impact to U.S. swine considering potential economic impact, trade implications, likelihood of introduction, etc
 - Determine what gaps we have with respect to each virus such as available diagnostic tests, vaccines, etc that might be necessary to have if the U.S. herd were ever infected.
 - Diagnostic testing or vaccine validation needed.
- SPS review and feedback
- Disease Approach: individual diseases or as a conglomerate? – Steve Henry
 - PRRS
 - PED
 - SIV
 - Brachyspira
- Other emerging issues
