

Construction

June 16, 2009

Future site of the new AASV office building located at the east edge of Perry, just off Highway 141 as it enters town.

July 3, 2009

The cement footings and construction pad have been poured and await construction.

July 12, 2009

The office walls are up! The taller wall divides the office from what will be the warehouse.

July 16, 2009

The trusses are in place over the office area.

July 23, 2009

The warehouse walls are in place and the trusses are going up!

July 24, 2009

The office and warehouse are now framed and trussed. Once complete, the building will provide space for a pet-food distributorship and possibly another business in addition to the AASV.
